The Dulevo scrubber-dryers line ideal to clean large commercial and industrial areas.

Large battery compartment for an extended working autonomy.

Internal cleaning device for the recovery tank provided with a quick coupling device to be connected to the water tap.

Easy access to filter and float; the filter can be cleaned without using any tool.

Sturdy and reliable self-supporting AISI 304 stainless steel tank.

Control panel housed between two sturdy handles, designed for a simple and intuitive use of the machine.

Adjustable parabolic-shaped squeegee perfect to work on many different type of floors. Rubber blades can be replaced without using any tool.

Wide selection

4 different models (two tanks capacity and four scrubbing heads to choose) to satisfy all different cleaning needs. Head-brush unit is in cast aluminium with independent motors to guarantee high power and reliability.
